1  # Product Requirements Document – GHB-WEB-001
2
3  **Product:** GameHub – Online Gaming Community and Matchmaking Portal
4  **Owner:** GameHub Inc. (Fictional Client)
5  **Category:** Web Design & UX / Gaming Community & Social Platform
6  **Status:** Final
7
8  ---
9
10 ## 1. Product Overview
11
12 ### 1.1 Background
13
14 GameHub Inc. is a fictional startup building a community-first gaming social platform targeting competitive and casual PC and console gamers aged 16 to 35. To establish its web presence and support user acquisition, GameHub requires a complete high-fidelity UI/UX design package that displays at minimum 6 distinct content sections above the footer on the Home Page as listed in §3.1, covers the Home → Profile → Matchmaking flow with at least 3 interactive prototype links, includes Sign In and Join Free CTA buttons in the global navigation bar and at least one primary CTA in the hero section, and is ready for handoff to a front-end development team.
15
16 This PRD describes an eight-deliverable design package produced as a first draft for review by the product and development team. The deliverable is a set of design files, not a working application.
17
18 ### 1.2 Product Outcome
19
20 The deliverable is a compressed archive containing eight design deliverables:
21
22 1. Home Page (Desktop + Mobile)
23 2. User Profile Page (Desktop + Mobile)
24 3. Matchmaking Interface (Desktop + Mobile)
25 4. Gaming News Section (Desktop + Mobile)
26 5. Community Forum Layout (Desktop + Mobile)
27 6. Event Calendar (Desktop + Mobile)
28 7. Design System Documentation
29 8. Clickable Prototype (Home → Profile → Matchmaking flow)
30
31 ### 1.3 Stakeholders
32
33 | Stakeholder | Interest |
34 |---|---|
35 | GameHub Inc. Founders | Brand identity, user retention, platform growth |
36 | Product Team | Information architecture, user flow completeness |
37 | Front-End Developers | Component specs with named variants, design system tokens, and spacing values in multiples of 4px |
```

```
38 | UX Reviewers / Evaluators | Usability, responsiveness, visual consistency |
39 | Casual Gamers (End Users) | Easy navigation, event and community discovery |
40 | Competitive Players (End Users) | Matchmaking accuracy, profile visibility, tournament info |
41
42 ---
43
```

## 44 ## 2. Deliverables and Output Specification

```
45
46 | ID | Deliverable | Output Format | Breakpoints | Required |
47 |---|---|---|---|---|
48 | D-01 | Home Page | Figma Frame + PNG Export (2x) | Desktop 1440px + Mobile 375px | Yes |
49 | D-02 | User Profile Page | Figma Frame + PNG Export (2x) | Desktop 1440px + Mobile 375px | Yes |
50 | D-03 | Matchmaking Interface | Figma Frame + PNG Export (2x) | Desktop 1440px + Mobile 375px | Yes |
51 | D-04 | Gaming News Section | Figma Frame + PNG Export (2x) | Desktop 1440px + Mobile 375px | Yes |
52 | D-05 | Community Forum Layout | Figma Frame + PNG Export (2x) | Desktop 1440px + Mobile 375px | Yes |
53 | D-06 | Event Calendar | Figma Frame + PNG Export (2x) | Desktop 1440px + Mobile 375px | Yes |
54 | D-07 | Design System Documentation | PDF (text-searchable) | N/A | Yes |
55 | D-08 | Prototype (clickable flow) | Figma Prototype Link | Desktop | Yes |
56
```

### 57 ### 2.1 Packaging

58  
59 All deliverables must be packaged in a single compressed archive named `GameHub\_Design\_v1.0\_[FreelancerName]`.

### 61 ### 2.2 File Naming Convention

62  
63 Files must follow the pattern `[DocID]\_[FileName]\_v[VersionNumber].[extension]`. Examples:

```
64
65 - `01_Design_File_v1.0.fig`
66 - `02_Design_System_Documentation_v1.0.pdf`
67 - `04_Home_Desktop_v1.0.png`
68
```

### 69 ### 2.3 Deliverable Package Structure

```
70
71 ```
72 GameHub-Design-Package/

94
95 ## 3. Functional Requirements – Home Page (D-01)
96
97 The Home Page is the platform's primary entry point. It must display at minimum 6 distinct content sections above the footer as listed in §3.1, include Sign In and Join Free CTA buttons in the global navigation bar, and include at least one primary CTA button in the hero section.
98
99 ### 3.1 Required Sections
100
101 | Section | Key UI Elements |
102 |---|---|
103 | Global Navigation Bar | Logo placeholder, 6 nav links, search input, Sign In button, Join Free button.
    Mobile: hamburger menu. |
104 | Hero Section | H1 headline, subheading, two CTA buttons, hero illustration placeholder (600x400) |
105 | Featured Game or Event Highlight | H2 heading, 1 large featured card + 2 smaller cards, each with image placeholder, title, category tag, CTA link |
106 | Live Matchmaking Preview | H2 heading, game filter dropdown, skill filter dropdown, 3 player result cards, Find Full Match CTA |
107 | Gaming News Strip | H2 heading, 3-column card grid or horizontal scroll row, each card with thumbnail, title, category tag, date |
108 | Community Stats Bar | Full-width band, 4 stats: Members, Games Listed, Matches Made, Events This Month |
109 | Upcoming Events Preview | H2 heading, 3 event cards each with banner placeholder, event name, date, game name, Register button |
110 | Footer | Logo, 4 link columns (Platform, Community, Support, Legal), copyright bar, 5 social icon placeholders |
111
112 ---
113
114 ## 4. Functional Requirements – User Profile Page (D-02)
115
116 The User Profile Page is the personal identity space for each platform member. It must display gaming activity, stats, achievements, and social connections.
```

```
117
118 ### 4.1 Required Sections
119
120 | Section | Key UI Elements |
121 |---|---|
122 | Global Navigation Bar | Identical to Home Page |
123 | Profile Header | Cover image placeholder (1440x240), circular avatar placeholder (120x120), username
    (H2), bio, level badge, 3 stat pills (Matches Played, Win Rate, Friends), Edit Profile button |
124 | Game Library | H3 heading, grid of minimum 6 game cards each with cover placeholder, title, hours play
    ed, last played date |
125 | Recent Activity Feed | H3 heading, vertical list of minimum 5 activity items each with small avatar, d
    escription, timestamp, game tag |
126 | Achievements Panel | H3 heading, horizontal row of minimum 6 badge placeholders (48x48 each) with achi
    evement name below |
127 | Friends List Preview | H3 heading, 2-column grid of minimum 4 friend cards each with small circular av
    atar, username, online status dot, View Profile link |
128
129 ---
130
131 ## 5. Functional Requirements – Matchmaking Interface (D-03)
132
133 The Matchmaking Interface allows players to find opponents or teammates filtered by game, skill level, r
    egion, and play style.
134
135 ### 5.1 Required Sections
136
137 | Section | Key UI Elements |
138 |---|---|
139 | Global Navigation Bar | Identical to Home Page |
140 | Page Header | H1 heading placeholder, one-line subheading placeholder |
141 | Filter Panel | Game selector, game mode selector, skill level selector (4 levels), region selector, pl
    ay style toggle (3 options), availability input, Apply Filters button, Reset Filters link. Desktop: left
    sidebar. Mobile: collapsible bottom sheet. |
142 | Results Grid | Results count label, 3-column card grid (desktop) / 1-column list (mobile), each card w
    ith avatar placeholder (64x64), username, level badge, skill tag, preferred game, region, win rate, Invi
    te to Match button, View Profile link |
143 | Active Match Lobby Preview | 4 player slots panel, each slot with avatar placeholder or empty indicato
    r, lobby name, game title, Start Match button (grayed-out disabled state) |
144
145 ---
146
147 ## 6. Functional Requirements – Gaming News Section (D-04)
148
149 The Gaming News Section surfaces platform and community news through article cards with category filteri
    ng and a featured article layout.
```

```
150
151 ### 6.1 Required Sections
152
153 | Section | Key UI Elements |
154 |---|---|
155 | Global Navigation Bar | Identical to Home Page |
156 | Page Header | H1 heading placeholder, category filter tab row: All, Esports, Game Releases, Tutorials,
Community, Patch Notes |
157 | Featured Article Banner | Full-width card, large image placeholder (800x300), category tag, H2 title,
author name, publish date, Read More button |
158 | Article Card Grid | 3-column desktop / 1-column mobile, minimum 6 cards each with thumbnail (400x240),
category tag, H3 title, author, date, Read More link |
159 | Sidebar (desktop only) | Trending Topics list (5 items with post count), Community Picks (3 small card
s with thumbnail and title) |
160 | Pagination | Previous button, Next button, at least 5 page number indicators |
161
162 ---
163
```

164 ## 7. Functional Requirements – Community Forum Layout (D-05)

165
166 The Community Forum allows members to start discussions, ask questions, and engage in threaded conversat
ions organized by category.

167
168 ### 7.1 Required Sections

```
169
170 | Section | Key UI Elements |
171 |---|---|
172 | Global Navigation Bar | Identical to Home Page |
173 | Forum Category List | H1 heading, vertical list of minimum 6 categories each with icon placeholder (32
x32), H3 category name, one-line description, thread count, post count, last-active timestamp |
174 | Thread List View | H2 selected category name, New Thread button, vertical list of minimum 8 threads ea
ch with author avatar (small circular), thread title, username, reply count, view count, category tag, l
ast reply timestamp, pin icon on first item |
175 | Individual Thread View | H1 thread title, original post block (avatar, username, level badge, body tex
t, timestamp, reaction icons), minimum 3 reply blocks in same layout, reply input area (avatar, multi-li
ne input placeholder, Post Reply button) |
176 | Forum Sidebar (desktop only) | Forum Rules panel (3–5 rule lines), Active Users Now panel (4 avatars +
count label), Report a Post link |
177
178 ---
179
```

180 ## 8. Functional Requirements – Event Calendar (D-06)

181
182 The Event Calendar lets members discover, browse, and register for upcoming tournaments and community ga
ming events.

```
183
184   ### 8.1 Required Sections
185
186   | Section | Key UI Elements |
187   |---|---|
188   | Global Navigation Bar | Identical to Home Page |
189   | Page Header | H1 heading placeholder, Grid View toggle button, List View toggle button (show active and inactive states) |
190   | Calendar Grid View | Full-width monthly grid, weekday column headers, date cells, minimum 4 cells with event indicator dots or chips, one selected date cell showing event summary panel |
191   | Event List View | Vertical list of minimum 6 events each with banner placeholder (400x120), H3 event name, date and time, game tag, prize pool placeholder, slots filled label, Register Now button, View Details link |
192   | Event Detail Card | Modal or side panel with full-width banner placeholder, H2 event name, organizer name, date/time/duration, game title, format description, prize breakdown table (1st, 2nd, 3rd), 3 rules lines, Register button, Close or Back link |
193
194   ---
195
196   ## 9. Functional Requirements – Design System Documentation (D-07)
197
198   The Design System Documentation must be a fully drafted reference PDF, not a placeholder. It must contain all of the following sections with all fields filled in using the actual values applied in the design.
199
200   ### 9.1 Color Tokens
201
202   A complete table of 11 color tokens: color-background, color-surface, color-surface-raised, color-accent-primary, color-accent-secondary, color-text-primary, color-text-secondary, color-border, color-success, color-warning, color-error. Each token must include its hex value and usage description.
203
204   ### 9.2 Typography Scale
205
206   A complete table of 6 type styles: text-h1, text-h2, text-h3, text-body, text-caption, text-button. Each style must include typeface name, weight, size in px, line height in px, and usage description.
207
208   ### 9.3 Spacing Scale
209
210   Eight spacing tokens based on a 4px base unit (space-1 through space-8: 4px to 64px). Each token must include a usage example.
211
212   ### 9.4 Component Library
213
214   Twelve components must each be documented with a Figma frame export and a usage note:
215
216   | Component | Required Variants |
```

```
217 |---|---|
218 | NavBar | Desktop, Mobile Collapsed, Mobile Expanded |
219 | Button | Primary, Secondary, Disabled, Icon-only |
220 | Input Field | Default, Focused, Error, Disabled |
221 | Dropdown | Closed, Open |
222 | ProfileCard | Default, Compact |
223 | MatchCard | Default, Invited state |
224 | NewsCard | Default, Featured |
225 | ForumCard | Default, Pinned |
226 | EventCard | Default, Registered |
227 | Badge | Level badge, Category tag, Skill tag, Status dot |
228 | Avatar | Large 120px, Medium 64px, Small 32px |
229 | Pagination | Default state, Active page state |
230
231 ### 9.5 Iconography
232
233 Icon library name, version, and license type stated. A sample grid of 12 icons used in the design with their names.
234
235 ### 9.6 Grid and Layout
236
237 12-column grid documented with gutter and margin values for Desktop (1440px), Tablet (768px), and Mobile (375px). A visual grid diagram included as a Figma frame export.
238
239 ---
240
241 ## 10. Functional Requirements – Prototype (D-08)
242
243 ### 10.1 Flow Coverage
244
245 The prototype must cover the following user journey with at least 3 interactive links:
246
247 Home Page → User Profile Page → Matchmaking Interface
248
249 ### 10.2 Sharing Requirements
250
251 - Delivered as a plain text file (03_Prototype_Link.txt) containing the shareable Figma URL
252 - Link must allow view-only access without requiring a Figma account sign-in
253
254 ---
255
256 ## 11. Non-Functional Requirements
257
258 ### 11.1 Design Standards
259
```

260 | Standard | Specification |  
261 |---|---|  
262 | Design Style | Dark-themed with accent color highlights. Original visual identity not derived from any  
existing platform. |  
263 | Grid System | 12-column grid. Gutters: 24px desktop, 16px tablet, 12px mobile. |  
264 | Breakpoints | Desktop: 1440px. Tablet: 768px (optional). Mobile: 375px. |  
265 | Spacing Scale | 4px base unit. All padding and margin values must be multiples of 4. |  
266 | Iconography | Free-license icon library (e.g., Phosphor Icons, Heroicons, Feather Icons). Library name  
documented. |  
267 | Imagery | All images must be labeled placeholder rectangles. No real game artwork or copyrighted image  
s. |  
268 | Color | Minimum 6 defined color tokens. Maximum 3 accent colors. All defined in design system. |  
269 | Typography | Maximum 2 typefaces. Google Fonts or documented free-license fonts only. |  
270 | Contrast | All body text must meet WCAG AA contrast ratio (4.5:1). Large text must meet 3:1. |  
271

272 ### 11.2 Figma File Organization Standards

273  
274 | Element | Requirement |  
275 |---|---|  
276 | Frame Naming | [PageName] / [Breakpoint] – e.g., Home / Desktop |  
277 | Layer Naming | All layers named descriptively. Zero unnamed layers (Layer 1, Rectangle 3, Group 7). |  
278 | Component Naming | PascalCase – e.g., NavBar, ProfileCard, MatchCard |  
279 | Page Organization | 01 Design System, 02 Home, 03 Profile, 04 Matchmaking, 05 News, 06 Forum, 07 Event  
s, 08 Prototype |  
280

281 ### 11.3 File Submission Standards

- 282  
283 - All PNG exports at 2x resolution  
284 - All PDFs must be text-searchable (not flattened images)  
285 - Figma source file must not exceed 200MB  
286 - No Canva exports accepted  
287 - No macros, locked sections, or plugin dependencies that prevent opening on another machine  
288 - All fonts must be available on Google Fonts or bundled as .ttf/.otf inside the archive  
289

290 ### 11.4 Placeholder Convention (required across all frames)

291  
292 ```  
293 [PLATFORM NAME]  
294 [TAGLINE TEXT]  
295 [USERNAME]  
296 [GAME TITLE]  
297 [AVATAR IMAGE – 80x80]  
298 [GAME COVER – 300x200]  
299 [NEWS ARTICLE THUMBNAIL – 400x240]  
300 [EVENT BANNER – 800x300]

```
301 [FORUM CATEGORY NAME]
302 [THREAD TITLE]
303 [DATE]
304 [REGION]
305 [SKILL LEVEL]
306 ```
307
308 ### 11.5 Mobile-Specific Behavior Requirements
309
310 | Element | Mobile Behavior |
311 |---|---|
312 | Global Navigation | Hamburger icon. Tap reveals full-screen nav overlay with all links. |
313 | Hero Section | Headline stacked above CTAs. Illustration placeholder below. |
314 | Card Grids | Single column. Full-width cards. |
315 | Filter Panel (Matchmaking) | Collapses to a Filters button revealing a bottom sheet or overlay. |
316 | Forum Thread List | Full-width list items. Sidebar hidden. |
317 | Event Calendar Grid | Shows one week at a time with left and right navigation arrows. |
318 | Footer | Single-column stacked layout. Link columns stacked vertically. |
319
320 No element in any mobile frame may extend beyond the 375px frame width.
321
322 ---
323
324 ## 12. Out of Scope
325
326 The following are explicitly excluded from this deliverable:
327
328 - Back-end development, APIs, or database architecture
329 - Actual game integrations or live data connections
330 - Logo design or brand identity creation
331 - Payment flow or subscription screen design
332 - Admin dashboard or moderation panel design
333 - Native mobile app design (iOS or Android)
334 - Animated micro-interactions beyond standard hover states in the prototype
335 - Copywriting beyond placeholder labels and dummy text
336 - Tablet breakpoint frames (optional, not required)
337
338 ---
339
340 ## 13. Acceptance Criteria
341
342 The deliverable is accepted when every item below is true:
343
344 1. All 8 deliverables (D-01 through D-08) present in the submission archive
345 2. Files named per the convention in §2.2
```

- 3. All 6 page types designed at Desktop (1440px) breakpoint
- 4. All 6 page types designed at Mobile (375px) breakpoint
- 5. Figma prototype covers Home → Profile → Matchmaking with at least 3 interactive links
- 6. All PNG exports are at 2x resolution
- 7. Design System Documentation PDF is present and fully filled in with actual values
- 8. Handoff README PDF is present
- 9. Zero real game titles, platform logos, or copyrighted images present in any frame
- 10. All image slots are labeled placeholder rectangles
- 11. All body text passes WCAG AA contrast ratio (4.5:1) against its background
- 12. All large text passes WCAG AA contrast ratio (3:1) against its background
- 13. NavBar component is consistent across all 6 desktop page frames
- 14. The following 12 components are built as Figma components with required variants: NavBar, Button, Input Field, Dropdown, ProfileCard, MatchCard, NewsCard, ForumCard, EventCard, Badge, Avatar, Pagination
- 15. All color tokens from the design system are applied consistently across all frames
- 16. All spacing values are multiples of 4px
- 17. No mobile frame has any element extending beyond 375px width
- 18. Zero unnamed layers in any Figma frame
- 19. All layers and frames named per conventions in §11.2
- 20. Figma file opens without missing fonts
- 21. Prototype link allows view-only access without a Figma account sign-in requirement
- 22. All PDFs are text-searchable
- 23. Archive is a single compressed file named per §2.1

---

## ## 14. Timeline

| Milestone                                | Deadline                                     |
|------------------------------------------|----------------------------------------------|
| ---                                      | ---                                          |
| Acknowledgement and clarifying questions | Within 24 hours of project award             |
| First draft submission                   | Within 7–10 business days of project award   |
| Client review                            | 3 business days                              |
| Revision Round 1 turnaround              | Within 3 business days of receiving feedback |
| Final delivery                           | Within 16 business days of project award     |

One revision round is included. Revisions that constitute new scope (additional page types or features not listed in §2) require a separate agreement.
