

Product Requirements Document — GHB-WEB-001

Product: GameHub - Online Gaming Community and Matchmaking Portal

Owner: GameHub Inc. (Fictional Client)

Category: Web Design & UX / Gaming Community & Social Platform

Status: Final

1. Product Overview

1.1 Background

GameHub Inc. is a fictional startup building a community-first gaming social platform targeting competitive and casual PC and console gamers aged 16 to 35. To establish its web presence and support user acquisition, GameHub requires a complete high-fidelity UI/UX design package that displays at minimum 6 distinct content sections above the footer on the Home Page as listed in §3.1, covers the Home → Profile → Matchmaking flow with at least 3 interactive prototype links, includes Sign In and Join Free CTA buttons in the global navigation bar and at least one primary CTA in the hero section, and is ready for handoff to a front-end development team.

This PRD describes an eight-deliverable design package produced as a first draft for review by the product and development team. The deliverable is a set of design files, not a working application.

1.2 Product Outcome

The deliverable is a compressed archive containing eight design deliverables:

1. Home Page (Desktop + Mobile)
2. User Profile Page (Desktop + Mobile)
3. Matchmaking Interface (Desktop + Mobile)
4. Gaming News Section (Desktop + Mobile)
5. Community Forum Layout (Desktop + Mobile)
6. Event Calendar (Desktop + Mobile)
7. Design System Documentation
8. Clickable Prototype (Home → Profile → Matchmaking flow)

1.3 Stakeholders

Stakeholder	Interest
GameHub Inc. Founders	Brand identity, user retention, platform growth
Product Team	Information architecture, user flow completeness
Front-End Developers	Component specs with named variants, design system tokens, and spacing values in multiples of 4px
UX Reviewers / Evaluators	Usability, responsiveness, visual consistency
Casual Gamers (End Users)	Easy navigation, event and community discovery
Competitive Players (End Users)	Matchmaking accuracy, profile visibility, tournament info

2. Deliverables and Output Specification

ID	Deliverable	Output Format	Breakpoints	Required
D-01	Home Page	Figma Frame + PNG Export (2x)	Desktop 1440px + Mobile 375px	Yes
D-02	User Profile Page	Figma Frame + PNG Export (2x)	Desktop 1440px + Mobile 375px	Yes
D-03	Matchmaking Interface	Figma Frame + PNG Export (2x)	Desktop 1440px + Mobile 375px	Yes
D-04	Gaming News Section	Figma Frame + PNG Export (2x)	Desktop 1440px + Mobile 375px	Yes
D-05	Community Forum Layout	Figma Frame + PNG Export (2x)	Desktop 1440px + Mobile 375px	Yes
D-06	Event Calendar	Figma Frame + PNG Export (2x)	Desktop 1440px + Mobile 375px	Yes

ID	Deliverable	Output Format	Breakpoints	Required
D-07	Design System Documentation	PDF (text-searchable)	N/A	Yes
D-08	Prototype (clickable flow)	Figma Prototype Link	Desktop	Yes

2.1 Packaging

All deliverables must be packaged in a single compressed archive named

`GameHub_Design_v1.0_[FreelancerName]`.

2.2 File Naming Convention

Files must follow the pattern `[DocID]_[FileName]_v[VersionNumber].[extension]`.

Examples:

- `01_Design_File_v1.0.fig`
- `02_Design_System_Documentation_v1.0.pdf`
- `04_Home_Desktop_v1.0.png`

2.3 Deliverable Package Structure

```
GameHub-Design-Package/

```

3. Functional Requirements — Home Page (D-01)

The Home Page is the platform's primary entry point. It must display at minimum 6 distinct content sections above the footer as listed in §3.1, include Sign In and Join Free CTA buttons in the global navigation bar, and include at least one primary CTA button in the hero section.

3.1 Required Sections

Section	Key UI Elements
Global Navigation Bar	Logo placeholder, 6 nav links, search input, Sign In button, Join Free button. Mobile: hamburger menu.
Hero Section	H1 headline, subheading, two CTA buttons, hero illustration placeholder (600x400)
Featured Game or Event Highlight	H2 heading, 1 large featured card + 2 smaller cards, each with image placeholder, title, category tag, CTA link
Live Matchmaking Preview	H2 heading, game filter dropdown, skill filter dropdown, 3 player result cards, Find Full Match CTA
Gaming News Strip	H2 heading, 3-column card grid or horizontal scroll row, each card with thumbnail, title, category tag, date
Community Stats Bar	Full-width band, 4 stats: Members, Games Listed, Matches Made, Events This Month
Upcoming Events Preview	H2 heading, 3 event cards each with banner placeholder, event name, date, game name, Register button
Footer	Logo, 4 link columns (Platform, Community, Support, Legal), copyright bar, 5 social icon placeholders

4. Functional Requirements — User Profile Page (D-02)

The User Profile Page is the personal identity space for each platform member. It must display gaming activity, stats, achievements, and social connections.

4.1 Required Sections

Section	Key UI Elements
Global Navigation Bar	Identical to Home Page
Profile Header	Cover image placeholder (1440x240), circular avatar placeholder (120x120), username (H2), bio, level badge, 3 stat pills (Matches Played, Win Rate, Friends), Edit Profile button
Game Library	H3 heading, grid of minimum 6 game cards each with cover placeholder, title, hours played, last played date
Recent Activity Feed	H3 heading, vertical list of minimum 5 activity items each with small avatar, description, timestamp, game tag
Achievements Panel	H3 heading, horizontal row of minimum 6 badge placeholders (48x48 each) with achievement name below
Friends List Preview	H3 heading, 2-column grid of minimum 4 friend cards each with small circular avatar, username, online status dot, View Profile link

5. Functional Requirements — Matchmaking Interface (D-03)

The Matchmaking Interface allows players to find opponents or teammates filtered by game, skill level, region, and play style.

5.1 Required Sections

Section	Key UI Elements
Global Navigation Bar	Identical to Home Page
Page Header	H1 heading placeholder, one-line subheading placeholder
Filter Panel	Game selector, game mode selector, skill level selector (4 levels), region selector, play style toggle (3 options), availability input, Apply Filters button, Reset Filters link. Desktop: left sidebar. Mobile: collapsible bottom sheet.
Results Grid	Results count label, 3-column card grid (desktop) / 1-column list (mobile), each card with avatar placeholder (64x64), username, level badge, skill tag, preferred game, region, win rate, Invite to Match button, View Profile link

Section	Key UI Elements
Active Match	4 player slots panel, each slot with avatar placeholder or empty indicator, lobby
Lobby Preview	name, game title, Start Match button (grayed-out disabled state)

6. Functional Requirements — Gaming News Section (D-04)

The Gaming News Section surfaces platform and community news through article cards with category filtering and a featured article layout.

6.1 Required Sections

Section	Key UI Elements
Global Navigation Bar	Identical to Home Page
Page Header	H1 heading placeholder, category filter tab row: All, Esports, Game Releases, Tutorials, Community, Patch Notes
Featured Article Banner	Full-width card, large image placeholder (800x300), category tag, H2 title, author name, publish date, Read More button
Article Card Grid	3-column desktop / 1-column mobile, minimum 6 cards each with thumbnail (400x240), category tag, H3 title, author, date, Read More link
Sidebar (desktop only)	Trending Topics list (5 items with post count), Community Picks (3 small cards with thumbnail and title)
Pagination	Previous button, Next button, at least 5 page number indicators

7. Functional Requirements — Community Forum Layout (D-05)

The Community Forum allows members to start discussions, ask questions, and engage in threaded conversations organized by category.

7.1 Required Sections

Section	Key UI Elements
Global	Identical to Home Page

Section	Key UI Elements
Navigation Bar	
Forum Category List	H1 heading, vertical list of minimum 6 categories each with icon placeholder (32x32), H3 category name, one-line description, thread count, post count, last-active timestamp
Thread List View	H2 selected category name, New Thread button, vertical list of minimum 8 threads each with author avatar (small circular), thread title, username, reply count, view count, category tag, last reply timestamp, pin icon on first item
Individual Thread View	H1 thread title, original post block (avatar, username, level badge, body text, timestamp, reaction icons), minimum 3 reply blocks in same layout, reply input area (avatar, multi-line input placeholder, Post Reply button)
Forum Sidebar (desktop only)	Forum Rules panel (3–5 rule lines), Active Users Now panel (4 avatars + count label), Report a Post link

8. Functional Requirements — Event Calendar (D-06)

The Event Calendar lets members discover, browse, and register for upcoming tournaments and community gaming events.

8.1 Required Sections

Section	Key UI Elements
Global Navigation Bar	Identical to Home Page
Page Header	H1 heading placeholder, Grid View toggle button, List View toggle button (show active and inactive states)
Calendar Grid View	Full-width monthly grid, weekday column headers, date cells, minimum 4 cells with event indicator dots or chips, one selected date cell showing event summary panel
Event List View	Vertical list of minimum 6 events each with banner placeholder (400x120), H3 event name, date and time, game tag, prize pool placeholder, slots filled label, Register Now button, View Details link

Section	Key UI Elements
Event Detail Card	Modal or side panel with full-width banner placeholder, H2 event name, organizer name, date/time/duration, game title, format description, prize breakdown table (1st, 2nd, 3rd), 3 rules lines, Register button, Close or Back link

9. Functional Requirements — Design System Documentation (D-07)

The Design System Documentation must be a fully drafted reference PDF, not a placeholder. It must contain all of the following sections with all fields filled in using the actual values applied in the design.

9.1 Color Tokens

A complete table of 11 color tokens: color-background, color-surface, color-surface-raised, color-accent-primary, color-accent-secondary, color-text-primary, color-text-secondary, color-border, color-success, color-warning, color-error. Each token must include its hex value and usage description.

9.2 Typography Scale

A complete table of 6 type styles: text-h1, text-h2, text-h3, text-body, text-caption, text-button. Each style must include typeface name, weight, size in px, line height in px, and usage description.

9.3 Spacing Scale

Eight spacing tokens based on a 4px base unit (space-1 through space-8: 4px to 64px). Each token must include a usage example.

9.4 Component Library

Twelve components must each be documented with a Figma frame export and a usage note:

Component	Required Variants
NavBar	Desktop, Mobile Collapsed, Mobile Expanded
Button	Primary, Secondary, Disabled, Icon-only
Input Field	Default, Focused, Error, Disabled
Dropdown	Closed, Open
ProfileCard	Default, Compact
MatchCard	Default, Invited state
NewsCard	Default, Featured
ForumCard	Default, Pinned
EventCard	Default, Registered
Badge	Level badge, Category tag, Skill tag, Status dot
Avatar	Large 120px, Medium 64px, Small 32px
Pagination	Default state, Active page state

9.5 Iconography

Icon library name, version, and license type stated. A sample grid of 12 icons used in the design with their names.

9.6 Grid and Layout

12-column grid documented with gutter and margin values for Desktop (1440px), Tablet (768px), and Mobile (375px). A visual grid diagram included as a Figma frame export.

10. Functional Requirements — Prototype (D-08)

10.1 Flow Coverage

The prototype must cover the following user journey with at least 3 interactive links:

Home Page → User Profile Page → Matchmaking Interface

10.2 Sharing Requirements

- Delivered as a plain text file (03_Prototype_Link.txt) containing the shareable Figma URL
 - Link must allow view-only access without requiring a Figma account sign-in
-

11. Non-Functional Requirements

11.1 Design Standards

Standard	Specification
Design Style	Dark-themed with accent color highlights. Original visual identity not derived from any existing platform.
Grid System	12-column grid. Gutters: 24px desktop, 16px tablet, 12px mobile.
Breakpoints	Desktop: 1440px. Tablet: 768px (optional). Mobile: 375px.
Spacing Scale	4px base unit. All padding and margin values must be multiples of 4.
Iconography	Free-license icon library (e.g., Phosphor Icons, Heroicons, Feather Icons). Library name documented.
Imagery	All images must be labeled placeholder rectangles. No real game artwork or copyrighted images.
Color	Minimum 6 defined color tokens. Maximum 3 accent colors. All defined in design system.
Typography	Maximum 2 typefaces. Google Fonts or documented free-license fonts only.
Contrast	All body text must meet WCAG AA contrast ratio (4.5:1). Large text must meet 3:1.

11.2 Figma File Organization Standards

Element	Requirement
Frame Naming	[PageName] / [Breakpoint] — e.g., Home / Desktop

Element	Requirement
Layer Naming	All layers named descriptively. Zero unnamed layers (Layer 1, Rectangle 3, Group 7).
Component Naming	PascalCase — e.g., NavBar, ProfileCard, MatchCard
Page Organization	01 Design System, 02 Home, 03 Profile, 04 Matchmaking, 05 News, 06 Forum, 07 Events, 08 Prototype

11.3 File Submission Standards

- All PNG exports at 2x resolution
- All PDFs must be text-searchable (not flattened images)
- Figma source file must not exceed 200MB
- No Canva exports accepted
- No macros, locked sections, or plugin dependencies that prevent opening on another machine
- All fonts must be available on Google Fonts or bundled as .ttf/.otf inside the archive

11.4 Placeholder Convention (required across all frames)

```
[PLATFORM NAME]
[TAGLINE TEXT]
[USERNAME]
[GAME TITLE]
[AVATAR IMAGE - 80x80]
[GAME COVER - 300x200]
[NEWS ARTICLE THUMBNAIL - 400x240]
[EVENT BANNER - 800x300]
[FORUM CATEGORY NAME]
[THREAD TITLE]
[DATE]
[REGION]
[SKILL LEVEL]
```

11.5 Mobile-Specific Behavior Requirements

Element	Mobile Behavior
Global Navigation	Hamburger icon. Tap reveals full-screen nav overlay with all links.

Element	Mobile Behavior
Hero Section	Headline stacked above CTAs. Illustration placeholder below.
Card Grids	Single column. Full-width cards.
Filter Panel (Matchmaking)	Collapses to a Filters button revealing a bottom sheet or overlay.
Forum Thread List	Full-width list items. Sidebar hidden.
Event Calendar Grid	Shows one week at a time with left and right navigation arrows.
Footer	Single-column stacked layout. Link columns stacked vertically.

No element in any mobile frame may extend beyond the 375px frame width.

12. Out of Scope

The following are explicitly excluded from this deliverable:

- Back-end development, APIs, or database architecture
- Actual game integrations or live data connections
- Logo design or brand identity creation
- Payment flow or subscription screen design
- Admin dashboard or moderation panel design
- Native mobile app design (iOS or Android)
- Animated micro-interactions beyond standard hover states in the prototype
- Copywriting beyond placeholder labels and dummy text
- Tablet breakpoint frames (optional, not required)

13. Acceptance Criteria

The deliverable is accepted when every item below is true:

1. All 8 deliverables (D-01 through D-08) present in the submission archive
2. Files named per the convention in §2.2
3. All 6 page types designed at Desktop (1440px) breakpoint
4. All 6 page types designed at Mobile (375px) breakpoint
5. Figma prototype covers Home → Profile → Matchmaking with at least 3 interactive links

6. All PNG exports are at 2x resolution
7. Design System Documentation PDF is present and fully filled in with actual values
8. Handoff README PDF is present
9. Zero real game titles, platform logos, or copyrighted images present in any frame
10. All image slots are labeled placeholder rectangles
11. All body text passes WCAG AA contrast ratio (4.5:1) against its background
12. All large text passes WCAG AA contrast ratio (3:1) against its background
13. NavBar component is consistent across all 6 desktop page frames
14. The following 12 components are built as Figma components with required variants:
NavBar, Button, Input Field, Dropdown, ProfileCard, MatchCard, NewsCard,
ForumCard, EventCard, Badge, Avatar, Pagination
15. All color tokens from the design system are applied consistently across all frames
16. All spacing values are multiples of 4px
17. No mobile frame has any element extending beyond 375px width
18. Zero unnamed layers in any Figma frame
19. All layers and frames named per conventions in §11.2
20. Figma file opens without missing fonts
21. Prototype link allows view-only access without a Figma account sign-in requirement
22. All PDFs are text-searchable
23. Archive is a single compressed file named per §2.1

14. Timeline

Milestone	Deadline
Acknowledgement and clarifying questions	Within 24 hours of project award
First draft submission	Within 7-10 business days of project award
Client review	3 business days
Revision Round 1 turnaround	Within 3 business days of receiving feedback
Final delivery	Within 16 business days of project award

One revision round is included. Revisions that constitute new scope (additional page types or features not listed in §2) require a separate agreement.

End of Product Requirements Document.
